## Church Planting Training :: Illinois

### Event Dates

March 18 - March 22, 2013

### Event Description

Participants have two track options at this church planting training: **Church Planting Essentials (CPE)** or **Churches Planting Churches (CPC)**. Additionally, there will be **Certified Trainer (CT)** training before and after this event.

**Church Planting Essentials** is church planting "basic training." The materials were created by **Dynamic Church Planting International**, based upon years of working in mission areas where the church is expanding rapidly. It is 3 full days, and teaches how to:

- Organize and refine your vision, purpose, strategies, and timeline early, so that you have a clear plan for the future.
- Use Biblical principles for church planting in everything you do.
- Recognize and avoid common church planting "land mines".

**Churches Planting Churches** is church sponsorship 101. It was also developed by Dynamic Church Planting International and lasts 3 days. The sessions in this training equip you to:

- Answer fears and objections to church planting
- Determine the involvement of the mother church
- Find resources needed to fund the daughter church
- Overcome common barriers in the new work
- Recruit a church planter and leadership
- Create your own personalized V.I.P. (Vision-Involvement-Plan)

In addition to these training tracks, there is **Certified Trainer (CT)** training that equips and certifies participants to re-teach the materials in their local context. It is provided at no extra cost. Those wishing to be certified must attend a session before their track begins, and another session when their track has finished. Certified Trainer training is identical for both tracks and need only be taken once.
